Re: Surface Water Application No. S 2-27825

Dear Mr. Flowers:

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections. In some cases it is also necessary for us to await approval of the Departments of Fisheries and Wildlife before issuing permits.

Also, the statutes prescribed that a field examination must be made before a permit may be issued. This examination will be carried out during the next visit to your area by one of our field examiners. However, we are not able, at this time, to forecast the date of that visit.

Sincerely,

  
Sheri Fox

Re: Surface Water Application No. S 2-27825

Dear Mr. Flowers:

Your application for the appropriation of water has been assigned the above referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in Clallam County. A list of these newspapers in your county is enclosed.

Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication from the newspaper, please forward it to this office promptly. This will shorten the time for further processing of your application.

Sincerely,

Sheri Fox
